## OUR SERVICES

We offer a full spectrum of services, from Implementing right application software, to Providing end-to-end Change and Project Management capabilities

### Digital Roadmap

Build customised action plan that accelerates fulfilment of your short- and longer-term business objectives through digital initiatives.

Through structured discovery interviews, workshops, and usage of proprietary tools, InvictIQ helps you in creating your own digital road map. This blueprint enables you to focus your time, energy, and resources on digital initiatives that will maximise the benefits of your investments.

Working in partnership with your team, we design your technology adoption plan to reach your objectives sooner and help you avoid expensive blunders.

### Digital Transformation

Implement and embed new technology seamlessly across your departments to enhance success of your digital and change management adoption.

We firmly believe Digital Transformation is about solving your business problems by using technology that is RIGHT for your business, so that you can accelerate value creation for your people. Before initiating digital transformation, it is important to identify the exact business goal of the transformation. We meet you wherever your Care business is on your digital journey and partner with your team to make your digital endeavours create lasting value.

### Ethical Digital Sourcing

Source the right digital products at the right cost for your business helping you increase your decision confidence.

We provide a better visibility of the entire procurement process to choose the right solution in a scalable and cost-effective manner.

This includes understanding the current digital landscape and defining which technology and digital competencies to source and how. We advise you on an optimal supplier strategy, while remaining supplier and location neutral. Our priorities include cost savings, optimal supplier selection and improved negotiation.

### Data & Analytics

Develop internal analytical capabilities by prioritising use of data to enable better business decision making with speed and accuracy.

InvictIQ takes an inclusive top down and bottom-up approach to Care providers data challenges. Data's worth depends on its accessibility and application. We identify use cases that can deliver against your business priorities.

With your team we redefine your existing processes to ensure your data is trustworthy. We then help you prioritise analytics based on value and feasibility, to aid better decision making with speed and accuracy.

# WE ARE DIFFERENT

## We are Care Sector Experts

With more than five decades of combined experience, we bring in-depth knowledge in lean processes, efficient technologies and change management expertise, delivered at right cost. We have successfully led strategic transformation initiatives in recruitment & retention, care & quality, operating model redefinition, sales improvement and resident engagement to achieve better CQC rating, increase sales and lower employee turnover

## We are Agile

We do not believe in one-size-fits-all approach. We help you implement proven solutions to achieve benefits quicker

## We are Trusted Partners

Partnering with your team, we recommend solutions that work best for you. We take pride in our partnership model and service delivery
